EDUCATION

Moreau Catholic High School, Hayward— *HS Diploma*

AUG 2016 - MAY 2021

UC Berkeley Extension Bootcamp, Berkeley— *in progress*

DEC 2021 - MAR 2022

PROJECTS

Kanye Quote Translator — *Github* | *Deployed Site*

A team web application that focuses on the implementation of REST APIs. My primary purpose of this project was working on the translation API, with the focus on encoding the headers and data. The translation function of this project may be broken due to subscriptions on the API.

Employee Tracker — *Github* | *Node.js Application*

"Employee Tracker" is a command-line level application with focus on using Node.js, Node Package Manager (NPM) and mySQL. It links the usage of Node.js and mySQL together in order to create and modify a database.

Get Moving — *Github* | *Heroku Deployment*

"Get Moving" is another team web application with the focus on Express.js routes and NPM package Sequelize models. It links front end and back end data to dynamically generate a page with variables using Handlebars.

CODING LANGUAGES

HTML5, CSS, Javascript, jQuery, JS APIs, AJAX/Fetch, Github Teams, Node.js, OOP, mySQL, REST APIs, Express.js Routes, Whiteboarding

SKILLS

Easily adaptable, flexible in taking over roles, able and eager to learn new things, communicative in a team environment
